**Pastor Preston
The Jewish
Revelation of using
the 7 Weapons
for Warfare**

God has always promised to protect, to provide, to love, to inform and to heal His people. Perry Stone an International gifted evangelist and teacher did an in depth study revealing the 7

Founded on His Truth

**Sunday at 9:15AM
God's Fire Devours Strongholds
Pastor Preston**

Amos 1:14-15: ¹⁴So I will kindle a fire in the wall of Rabbah [in Ammon] and it shall devour the strongholds of it, with shouting in the day of battle, with a tempest in the day of the whirlwind; ¹⁵And their king shall go into exile, he and his princes together, says the Lord.

God has always been jealous over His people and their attention toward Him. The people in that day had raised up false gods and practiced wickedness in rebellion, in

perversion and child sacrifice. The Lord chose Amos to warn the people and tell them to repent and turn back to Him so they wouldn't have to suffer. Amos was a righteous man who showed compassion toward the widow, the orphan and the stranger. Because Amos' heart was aligned with God, Amos spoke with love and truth to warn the people. The Bible says that the Lord will fight our battles and He watches over His Word to perform it. When the helpless meet injustice, God Himself will break down the strongholds against them. The Lord says that He takes what is evil and turns it for good. Right now, if you are going through an injustice, place your trust in the Lord and He will fight your battles.

Can Your Diet Prevent Depression?

Depression is an established risk factor for the development of coronary heart disease (CHD). Dietary factors resulting in lower levels of omega-3 fats not only increase CHD risk, but may also cause depression. Investigators measured red blood cell levels of two omega-3 fats, docosahexaenoic acid (DHA) and eicosapentaenoic acid (EPA), and assessed depressive symptoms in a cross-sectional study of nearly 1,000 adults with CHD. As EPA and DHA levels rose, depressive symptoms dropped. The prevalence of depression ranged from 23 percent in participants with the lowest blood levels of omega-3 fats to 13 percent in participants with the highest omega-3 blood levels.

Washing Your Hands Properly Stops the Spread of Contagious Disease

Most people know that washing your hands can help to prevent passing on nasty viruses and bacteria. But how many people just flick their hands under a dribbling tap and think that will do? Now hopeless hand washers will be caught with glowing green fingers by a good hand-washing test. A new hand-washing training kit uses a cream containing a harmless dye that glows green in ultraviolet light to show up shoddy hand washing. Demonstrators put a

Weapons for Warfare. We will be studying satanic battles and how to overcome through God's plans, secrets in the place of the Most High and how to apply God's wisdom in our daily lives for victory. Come and bring a friend that wants to understand the unfailing wisdom and love of the Lord of Victory.

Praise Reports

Bills Paid in Full

We were faced with a pile of bills and there was no visible way to pay for them. We asked the Lord to call forth a blessing that would pay every bill in full. God sent the help that He had promised and every bill was paid that we was requested. Thank You God for answering our needs.

Prayers Answered

We were facing a bad medical report. Only the Lord could help us. God took what was evil and turned it for good on our behalf. Thank You Lord.

God opens Doors

I was asking the Lord for help and encouragement in some areas. The Lord sliced the confusion and launched a blessing for us by opening a door into new opportunities. Thank You Jesus.

Mail your gifts to: Harvest Centers P.O. Box 877 Newnan, GA 30264

blob of cream on people's hands and send them away to wash them. When they come back, they are often amazed at how much glowing green dye remains on their fingers. If the dye were a microbe, they would be standing a good chance of infecting themselves and passing it on to other people. The glowing cream can also be used to show how viruses such as those that cause colds and flu can survive on hard surfaces and be spread from hand to hand. Just touching a doorknob that has had a little of the special cream applied to it can make people's fingers turn green under UV light -- and then when they touch another person's hand the green glow gets passed on.
